

Why not repair things?

Instead of constantly throwing things away, we can repair them or give them a new purpose. Do you know someone whose job it is to repair broken or defective objects?

Process

1. Research the following occupations: shoemaker, dressmaker/seamstress, cabinetmaker, repairmen of all kinds, recycling shops (bicycles, computers, paper, etc.), artists and others.
2. What questions would you like to ask them about their trade?
3. Get in touch with these people.
4. Present your findings to your classmates.
